i-TPMS Appearance Change

Dear All,

We would like to inform you about a recent update regarding the appearance of our i-TPMS product. Effective immediately, the previous i-TPMS silk print on the product has been removed as part of an aesthetic revision. This change enhances the overall design while maintaining the high functionality and quality you expect from our products.

Please note that this alteration does not affect the performance or technical specifications of the i-TPMS in any way. The product’s core functionality remains unchanged, and it continues to provide reliable, high-quality tire pressure functions.

Old Appearance	New Appearance
