PAD9 White Theme APP Version 8.00.036 & PAD9 Dark Theme

APP V8.00.039 Release Notes

Note: The PAD9 has 2 different Apps available, which can be switched between as you like.

White Theme App V8.00.036, can switch to Dark theme by path:

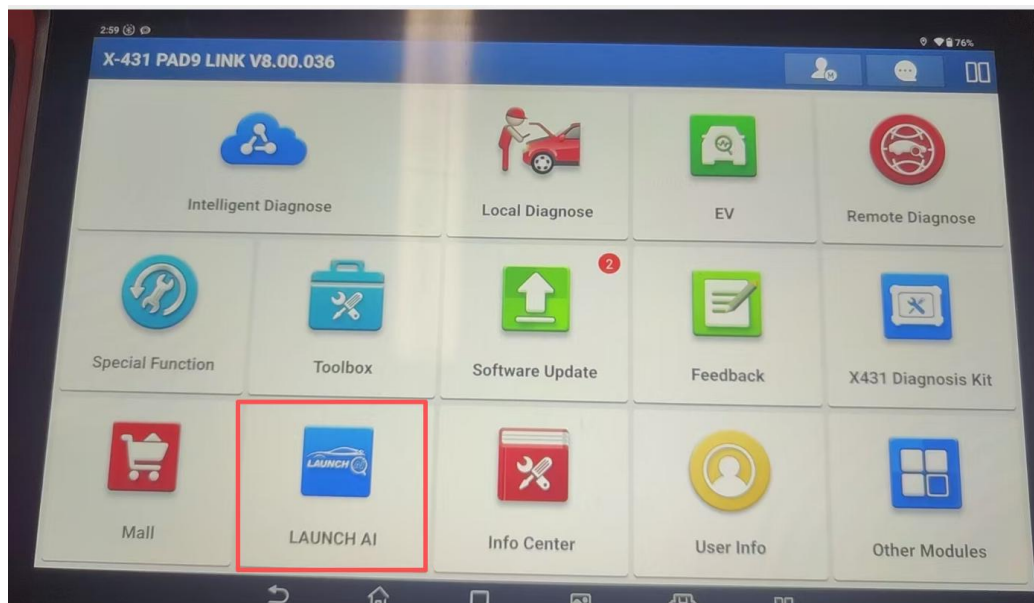

White theme App Home Page> Other Module> New UI> Download New UI App

Dark Theme App V8.00.039, can switch to White theme by path:

Delete Dark Theme App> Open App "App Init"> Input PAD9 SN> download V8.00.036 App and install

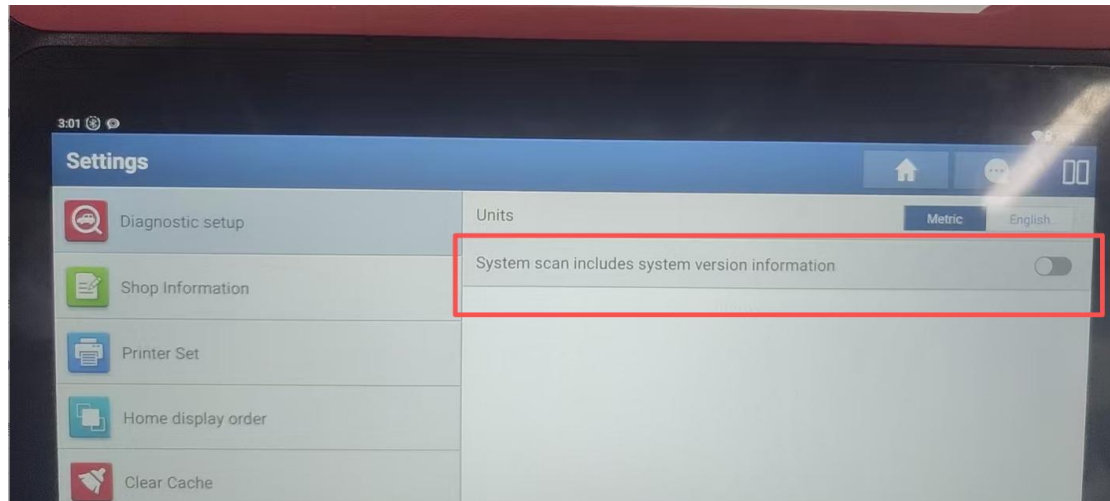

Main Updates:

1. Added LAUNCH AI function on the home page (currently supported only on PAD9 LINK).

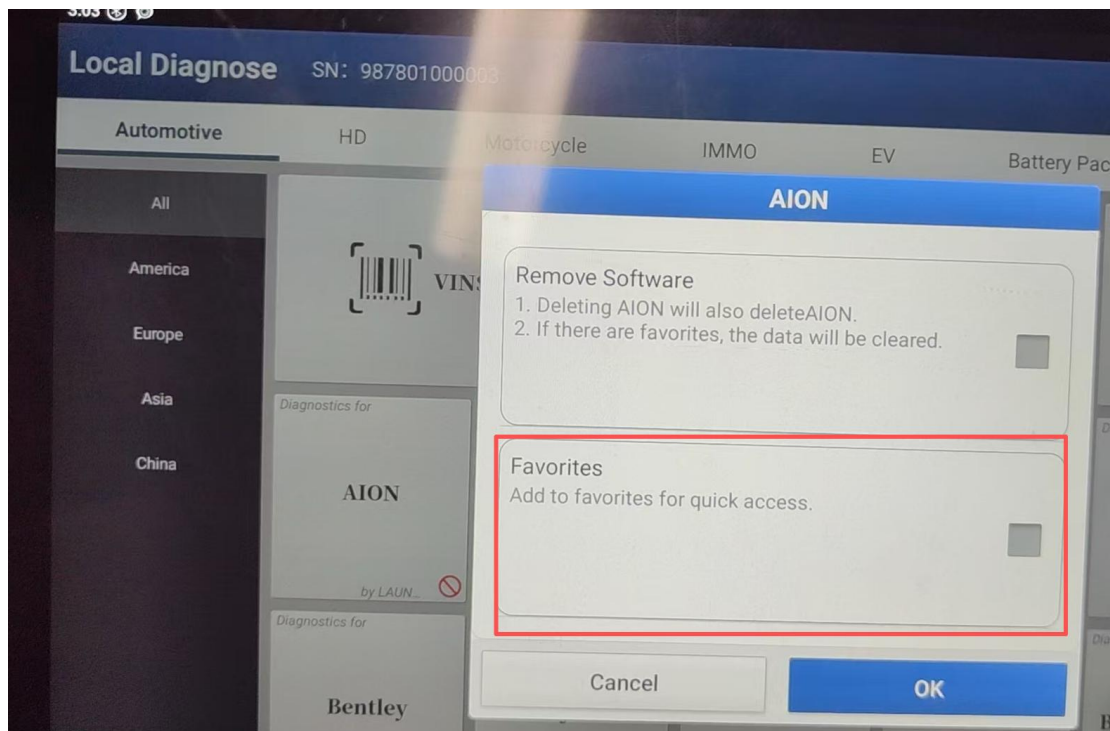

2. Introduced a dynamic calculation method for SOH (State of Health) battery health (applicable to some new energy configurations and EV software add-ons).

3. Added a version information read toggle in Settings, allowing users to control whether the system scan detects and reads version information.

4. Added a favorite function by long-pressing the software icon in the traditional diagnosis interface.

5. Added an IM (Instant Messaging) function at the top right corner of the home page. (on PAD9 Dark Theme APP V8.00.039 only, white App already have)

6. Added merged tire tread reports within the diagnostic report.

7. Optimized translations for Persian, Japanese, Vietnamese, and other languages.
8. Optimized DoIP (Diagnosis over Internet Protocol) functionality.
9. Optimized the translation error correction feature.
10. Optimized software category icons in the "Software Update" Module.
11. Moved the "Launch Academy" function to the "Other Modules" section.
12. Add the Launch Academy ICON. (on PAD9 Dark Theme APP V8.00.039 only, white App already have).
13. Others.
